

PROFESSIONAL SUMMARY

Motivated Computer Science Undergraduate at IIT, specializing in full stack development and passionate about cloud Technologies. Skilled in full-stack development with React.js, Node.js, Firebase, and exploring scalable SaaS platforms. Experienced in leading small development teams in hackathons and university projects. Currently building a real-time salon management and reservation platform (SaloBook). Passionate about applying technical skills to solve real-world problems through collaboration and effective system planning.

PROJECTS

- MINEO – GAMIFIED SELF-GROWTH & JOURNALING APP

January 2026

Tech Stack:

TypeScript, React Native, Node.js, Fastify, Groq API, Llama 3.1, Firebase

•

Developed a mobile self-growth platform that helps users track personal development through journaling, habit tracking, and AI-assisted goal planning. Introduced a Journey Map system that visualizes life milestones as a gamified timeline, enabling users to transform daily experiences into meaningful progress.

•

Features

▪

Journaling & Journey Map: Record daily reflections and convert important moments into visual milestones on a life timeline.

▪

AI Goal Planner: AI chatbot that converts long-term goals into structured, stage-based action plans.

▪

Habit Tracker: Track daily habits with progress indicators and streak-based motivation.
- SALOBOK CLIENT ACQUISITION APP

October 2025

Tech Stack:

TypeScript, MERN Stack, Tailwind CSS, Firebase Auth , MVC

•

Developed a full-stack platform used by SaloBook’s admin and the acquisition team to manage 100+ salon leads, improving lead-tracking accuracy, team coordination and reducing manual onboarding time by 40%.

•

Features

▪

Lead Management: Record, track, and prioritize salon leads

▪

Client Database: Centralized storage of salon and client information

▪

Team Collaboration: Assign leads and monitor progress across the team.
- FOCUSBOARD - A PRODUCTIVITY DASHBOARD

June 2025

Tech Stack:

React.js, Tailwind CSS , Firestore, Firebase Auth

•

Developed a productivity dashboard supporting real-time task updates for project-based workflows, enabling users to organize 30+ tasks per project with Firebase’s real-time sync with priority levels.

•

Features

▪

Integrated Firebase Authentication for secure user registration and login

▪

Enabled full CRUD operations with Firestore for managing tasks and projects

▪

Creating project-based tasks

COMPETITIONS & ACHIEVEMENTS

• AdaptIQ 2025 - IEEE WEI IIT

2nd Runner-Up

Achieved 2nd Runner Up in a 24 hour hackathon, ranking among the top 3 finalists, focusing on building scalable, tech-driven solutions.

• IX 2025 - IEEE Student Branch, IIT

Participant

Participated in a 36-hour designathon where our team designed and built a functional prototype of a user-centered solution using figma.

• Inter School Milo Tournament

Champions

Secured the Championship title at the 2023 Milo Football Tournament, leading the team through competitive knockout stages and showcasing strong teamwork, resilience, and strategic play.

ADDITIONAL INFORMATION

- **Languages:** English (*Fluent*), Sinhala (*Intermediate*), Tamil (*Native*)
- **Interests:** Full-Stack Development, Cloud engineering, System Design
- **Soft Skills:** Problem-Solving, Collaboration, Adaptability, Communication, Leadership, Time Management
